

GRI Content Index

This report was prepared in accordance with the Global Reporting Initiative (GRI) Standards: Core option.

For many topics, our disclosure includes topics or performance data beyond that required to meet Core requirements. Information exceeding the GRI core disclosure requirement is included in the report.

For priority (material) topics where there is no relevant GRI Topic Specific Standard, we list management approach disclosures according to a Johnson & Johnson list.

102-11	Precautionary Principle or approach	Protecting the environment and natural resources is one of Johnson & Johnson's foundational objectives, as outlined in Our Credo. We have a comprehensive environmental risk management approach in place to fulfill this obligation. This includes assessing the potential environmental impacts of all our products during the development phase, evaluating and mitigating the climate change and water risks from our operations, and continuously evaluating and reducing where possible the environmental footprint of products and packaging through our proprietary product development approach called EARTHWARDS. We also integrate environmental risk considerations in our sourcing decisions and have programs in place to identify and mitigate risks in the supply base.
102-11	External initiatives	Johnson & Johnson recognizes and subscribes to numerous externally developed economic, environmental and social charters and initiatives, including the UN Global Compact. Select examples are noted in Sustainability Governance (Engaging with Our Stakeholders) and throughout the report.
